

Mobile

ARway runs on all augmented reality capable mobile devices. The advantage of mobile devices is obvious. They are ubiquitous and familiar. The possible uses are very diverse and range from navigating from point A to point B to interacting with rich and engaging spatial augmented reality experiences. Our applications are optimized for a variety of devices, from latest OS and model releases to older ones, as long as they have a camera and are AR capable.

Minimum Requirements

BUILD IN AR TECHNOLOGY

ARkit

ARCore

Recommended

OPERATING SYSTEMS

iOS 12 or later, Android 11 or later

Desktop

All ARway desktop applications are web based and don't need any local infrastructure installation.

Minimum Requirements

OPERATING SYSTEMS

MACOS 10.13 or later
Windows 10 or later

HARDWARE REQUIREMENTS

Intel 7th generation i3 or better (with integrated GPU) or AMD equivalent with Radeon graphics

BROWSERS

Any

Recommended

OPERATING SYSTEMS

MACOS 12 or later
Windows 11 or later

BUILD IN TECHNOLOGY

Intel 10th generation i3 or better (with integrated GPU)

BROWSERS

Google Chrome

Spatial Content

The following Spatial Content can be placed directly into maps with centimeter precision and experienced in AR

	FORMAT	SIZE
FLOORPLAN	PNG, JPEG	-
TEXT	-	No Limit
IMAGES	jpg/.jpeg/.png	2 MB
HOTSPOTS	-	No limit
AUDIO	.mp3/.wav/.ogg	4 MB
NAVIGATION PATHS	-	No limit
3D MODELS	.glb	15 MB, 10K Polys
VIDEOS	.mp4	15 MB
